Message from the Superintendent

As partners in education we realize that the education of our children) is the joint responsibility of the schools, the home, and the student.

Each curriculum brochure has been written to give you, the parent, a broad overview of the skills your child is expected to learn at specific subject and grade levels. This pamphlet does not contain all the skills your child will learn. Rather, it is an outline for you. We hope that you use this guide to help your child at home. Together, we believe much can be accomplished.
